Mercy Health Occupational Health Locations

Occupational Medicine

Preventive medicine: We aim to protect and promote the health of your workers, with the goal to prevent work-related injuries and illnesses.

Environmental medicine: We help you identify and control workplace health hazards. Environmental hazards can be physical, chemical or biological factors that may have harmful effects on the health and productivity of your workers as well.

Our comprehensive services

We offer the occupational health services your business needs:

- Physicals: DOT, respiratory, fitness for duty
- Care for work-related injuries and illnesses, including case management
- Drug testing with MRO services
- Hazardous material examinations
- On-site occupational/physical therapy services
- Radiology and laboratory services
- On-site company visits
- Pre-employment physicals
- Independent medical evaluations
- Return-to-work evaluations
- OSHA safety walk-throughs
- Impairment ratings
- CPR training/certification

- Biometric screening (TC, HDL, LDL, glucose)
- Nutritional information
- Online health risk assessment
- Health tip of the week email
- Aggregate data collection and follow-up
- 12-month wellness calendar based on aggregate data for company

Our medical director

**Robert A. Marshall, MD, MPH,
ABPM, CMRO, NRCME**
Medical Director of Occupational
Health, Board Certified Occupational
Medicine

"It is my role and duty to promote a healthy and safe workplace, and to keep workers on the job in a safe environment through customizing services based on the unique needs of each employee, and the individual needs of each company; in an effort to assist each individual to maintain or reach their maximum level of function, through the use of effective, high-quality, yet cost-effective health care.

"This philosophy embraces treatment and care after an injury has occurred, but, much more importantly, helps the employee and company avoid the mishap in the first place. This is done through appropriate workplace consulting and working with each company's safety professionals and employee stakeholders. The core of occupational medicine is preventive medicine."

Dr. Marshall received his medical degree at Ohio State University, Columbus, and served his residency at Toledo Hospital/W.W. Knight Family Practice, Toledo, OH. He also earned his Master of Public Health (MPH) at Ohio State University School of Public Health, Columbus. He is certified in Occupational Medicine by the American Board of Preventive Medicine and the National Registry of Certified Medical Examiners (NRCME) for Department of Transportation. Dr. Marshall is a Certified Medical Review Officer (CMRO).

Dr. Marshall's special interests include:

- Review drug screens for government and private entities
- Consult to set up and revise drug-free work place policies and procedures
- Disability exams and independent medical exams for workers comp and private entities

Dr. Marshall practices at Mercyhealth Occupational Health and Wellness–Rockford and Mercyhealth Occupational Health and Wellness–Janesville.
